Register Now for 2009 Convergence In New Orleans, LA

Registration begins December 3, 2008 for the biggest Microsoft Dynamics Event of the year. 2009 Convergence is scheduled in New Orleans, LA March 10-13. This event brings together customers, partners, industry experts and team members to discuss and address business needs in a community setting.

Use this opportunity to listen to a variety of speakers, attend hands on learning sessions and

see detailed product demonstrations. Enhance your Microsoft investment and gain a stronger sense of community through interacting with industry leaders, Microsoft team members, partners and other customers. Build skill across all Microsoft platforms and equip yourself with the knowledge you need to optimize your business solution.

Microsoft will also discuss the vision and strategy of key

Microsoft executive leaders, provide insight into the future of the company, product direction and investments that can help you take advantage of the benefits.

Register today and take advantage of early registration pricing of \$1195 before January 14, 2009. After January 14, registration will be \$1495. Don't miss this exciting event. Register online at www.microsoft.com/dynamics/convergence.

2008 End-of-the-Year Report

As the calendar year draws to a close, your business is no doubt preparing for a rush of year-end activities. Prepare now for a smooth and successful jump-start into the new year by getting your accounting system up-to-date for year-end close.

The Microsoft Dynamics SL and GP 2008 year-end updates include changes for 1099 and W-2 reporting that will help your organization comply with tax year 2008

reporting regulations and they are now available for downloading. To get up-to-date year-end information, log on to Customer Source.

To order 2008 1099-MISC and W-2 laser forms that are compatible with Microsoft Dynamics SL releases call 1-800-432-1281. Electronic submission of W-2 and 1099-MISC information is supported as well. Customer Service representatives will be available to answer any questions you may have. Online form ordering is available at www.microsoftbusinesschecks.com.

Directions for installing all year-end updates are on Customer Source or call your Cardamel representative to assist you at 1-888-236-3269. For technical support questions, log on to <https://mbs.microsoft.com/support> and choose New Support Request under Assisted Support. Please choose Payroll Tax Updates as the subcategory selection. Finish installing now and enjoy a happy new year!

Learn More About FRx Financial Reporting

The FRx Financial Reporting Extender can help you create management and financial reports from your general ledger working seamlessly with Microsoft Dynamics GP and SL.

Want to learn more or already have FRx in place and need a training class? Go to <http://4acc.com> and register for the next training session near you.

Call Cardamel today at 1-888-236-3269 to see how you can benefit from this offer.

Cardamel is now supporting:

Microsoft Dynamics SL 7.0 Feature Pack 1

Microsoft Dynamics GP 10.0

A Special December User Event

Join us for a very special December User Event at the Denver LoDo Cru on Wednesday, December 10, 2008 from 5:30-9:30 p.m. for drinks and hors d'oeuvres. Use this opportunity to meet with Cardamel representatives and other Dynamics users in an informal setting. Bring in your ticket with the backside filled out and enter to win fun prizes. Call to reserve your table or to order additional tickets today at the Cardamel offices at 303-984-0754 and help us celebrate the holidays.

Microsoft Dynamics SL 7.0 Feature Pack 1 is Now Available

Microsoft Dynamics SL 7.0 Feature Pack 1 is now available to help you improve teamwork, improve project manager productivity and make tasks easier to perform. With the addition of **Doc-Share Publish to SharePoint**, you will have the ability to post certain Microsoft Dynamics SL generated documents to a Windows SharePoint Services 3.0 site and make them accessible to people who need them. Create a SharePoint site that is linked to a Microsoft Dynamics SL customer, vendor or project and then select document publishing options and create a document library for specific document types. With expanded **Quick Send** capabilities, in addition to providing invoice and purchase order transmission, you will also be able to transmit Accounts Receivable statements, order management order confirmations and shipping notices. Distribute payroll direct deposit advice slips by email or fax. Quick Send is also enhanced to send a document to more than one recipient.

Project Managers will be able to utilize expanded **Business Portal Project Employee and Resource Maintenance capabilities**. Remotely access all Microsoft Dynamics SL Project-related features using the Internet and conduct project/task creation, editing, resource assignment, budgeting, time and expense entry and approval along with analysis of projects remotely, via the Web with Business Portal. Create **project subtasks** and record time against them and set up **maximums** based on Task/Account Category. **Microsoft Dynamics SL 7.0 connector to Microsoft Office Project 2007** has also been added and with the **new time entry screen** to Microsoft Dynamics SL Business Portal, you will have increased flexibility. **Business Portal Notes and Comments Entry** lets you enter and maintain Business Portal document approval and gives you the ability to view all notes and comments at all levels.

With Feature Pack 1, the enhancements will make your tasks even easier to accomplish by removing the ability for people to post entries to previous periods or fiscal years with **lock down prior period and fiscal year posting, sorting based on column functionality**, creating a way to **void payroll checks from different periods in the current period, controlling access to the business date** and more.

For more information or to get Feature Pack 1, call us today at 1-888-236-3269

Tips and Tricks

Do you need to set up security access for multiple users with Microsoft Dynamics GP? While Standard Security uses separate windows which allow you to control security for a single user and requires you to set security for Modified, Alternate or Modified Alternate windows by changing views, with Advanced Security, you can easily make changes to security at the class level automatically to users of that class without overwriting user level security changes.

Advanced Security also provides an explorer style interface with multiple views, including the by menu view. Access to Modified, Alternate or Alternate Modified resources can be selected by choosing the dictionary to use without changing the view.

To access the Advanced Security Module in Microsoft Dynamics GP, click Tools, point to Setup, point to System and then click Advanced Security. Need additional help in setting up User Security? Call us at 1-888-236-3269.
